On far side of oil lines is a long transit shed. [redacted] is still 25X1 incomplete - the roof is on, it seems, only temporarily: rain drips through, etc.

These lines run above ground here, then go underground at a point just this side of wall, designator L.

(X) Fresh water, good drinking, poor pressure.  
Faucet-type, 2 1/2" connection.

25-30'

wooden platform above pipes - steps at end toward center of pier.

light poles - lighting termed "poor"
